

QLD State Committee Event | Security in the Digital Age | 14 October 2018

Presented by Jessie Jeffery

According to the Australian Cyber Security Centre's 2016 Cyber Security Survey, 90% of organisations experienced a cyber security breach or threat in the past year and with the recent outbreaks affecting well known organisations it shows that no organisation is immune.

This seminar will provide an overview of current and emerging threats to your security online. Covering topics such as how to identify threats, minimise vulnerabilities and secure your data, the seminar will provide you with some practical advice and techniques to protect yourself, your staff and your business against cyber security threats. It will also discuss your obligations under the National Data Breach Scheme and the steps needed to ensure you are compliant.

The workshop will primarily be a lecture with some group discussion. The seminar is applicable to all professionals and will benefit anyone who uses the internet.
